

The Importance of the **P2PX>>**

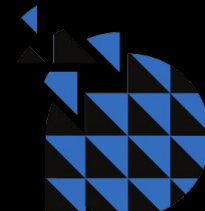

P2P Global Network is the premier provider for **supplemental income in distress situations**, launched in 2018 to answer the following challenges:

- Lack of income due to lay off
- Lack of income due to medical conditions
- Lack of income due to natural disasters
- Lack of income due to family matters
- Global areas that are limited to service

But, that was not enough.

NOW, with P2P Global Network native coin swapped to P2PX, our goal is **to bring the traditional banking and insurance** to the crypto space by use of blockchain without all the fees, single point of authority failure, and privacy of today's experience.

MONEY became **a subsidiary** of our system, providing clients with unique opportunity to interchange between cryptocurrency and USD with ease, and much more!

The entire landscape of sending cryptocurrency is changing with Money.

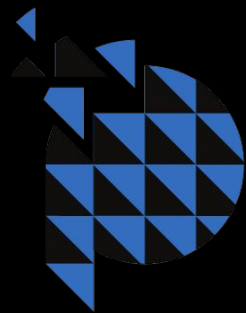

EMPOWERED ECOSYSTEM

NOW, in **2019**, P2Px is a strong ecosystem with a unique opportunity to offer users banking, insurance and other crypto market services. With our community of 60+ K people, we are proud to say that YES, IT IS POSSIBLE. Let's see how:

**In the end of the 2018,
We became the P2Px Ecosystem**

Our goal is to bring the traditional banking and insurance to the crypto space by use of blockchain without all the fees, single point of authority failure, and privacy of today's experience.

P2PX is the first and ONLY cryptocurrency to be the native coin in multiple platforms for extra value through use case demand! Join us today, launch of both platforms in coming two months!
